

TODDLER 2 PROGRAM

Toddlers are learning and growing every day. We will encourage their development through hands-on play with interactive and developmentally appropriate materials. We will talk one-on-one with your child, really encouraging and developing language skills. Your child will play with stacking toys, wooden puzzles, push/pull toys, large manipulatives, music instruments, board books, blocks, art materials and dramatic play items. Our teachers will encourage the children to think, reason, question and experiment. We will teach your toddler self-help, toileting and social skills to become a successful preschooler.
